DDE Resources

Recycle Devon - Science of Materials: Plastic - KS1/KS2/KS3

The Waste Education Team at Devon County Council and Resource Futures are creating a series of curriculum linked worksheets all about the Science of Materials. The second material in the series is plastic and seeks to educate learners about the properties of this material.

United Nations - International Women's Day - KS1/KS2/KS3

Every year, 8 March is celebrated around the world as International Women's Day. It marks the struggle for gender equality that has gone on for many generations. This resource includes a factsheet for teachers as well as lessons aimed at both KS1 and KS2. This resource seeks to educate learners about the need for an International Women's Day as well as the importance of equal opportunities. This could be used as a standalone lesson, or integrated into a wider PSHE theme.
