

Devon supporting the Millennium Development Goals

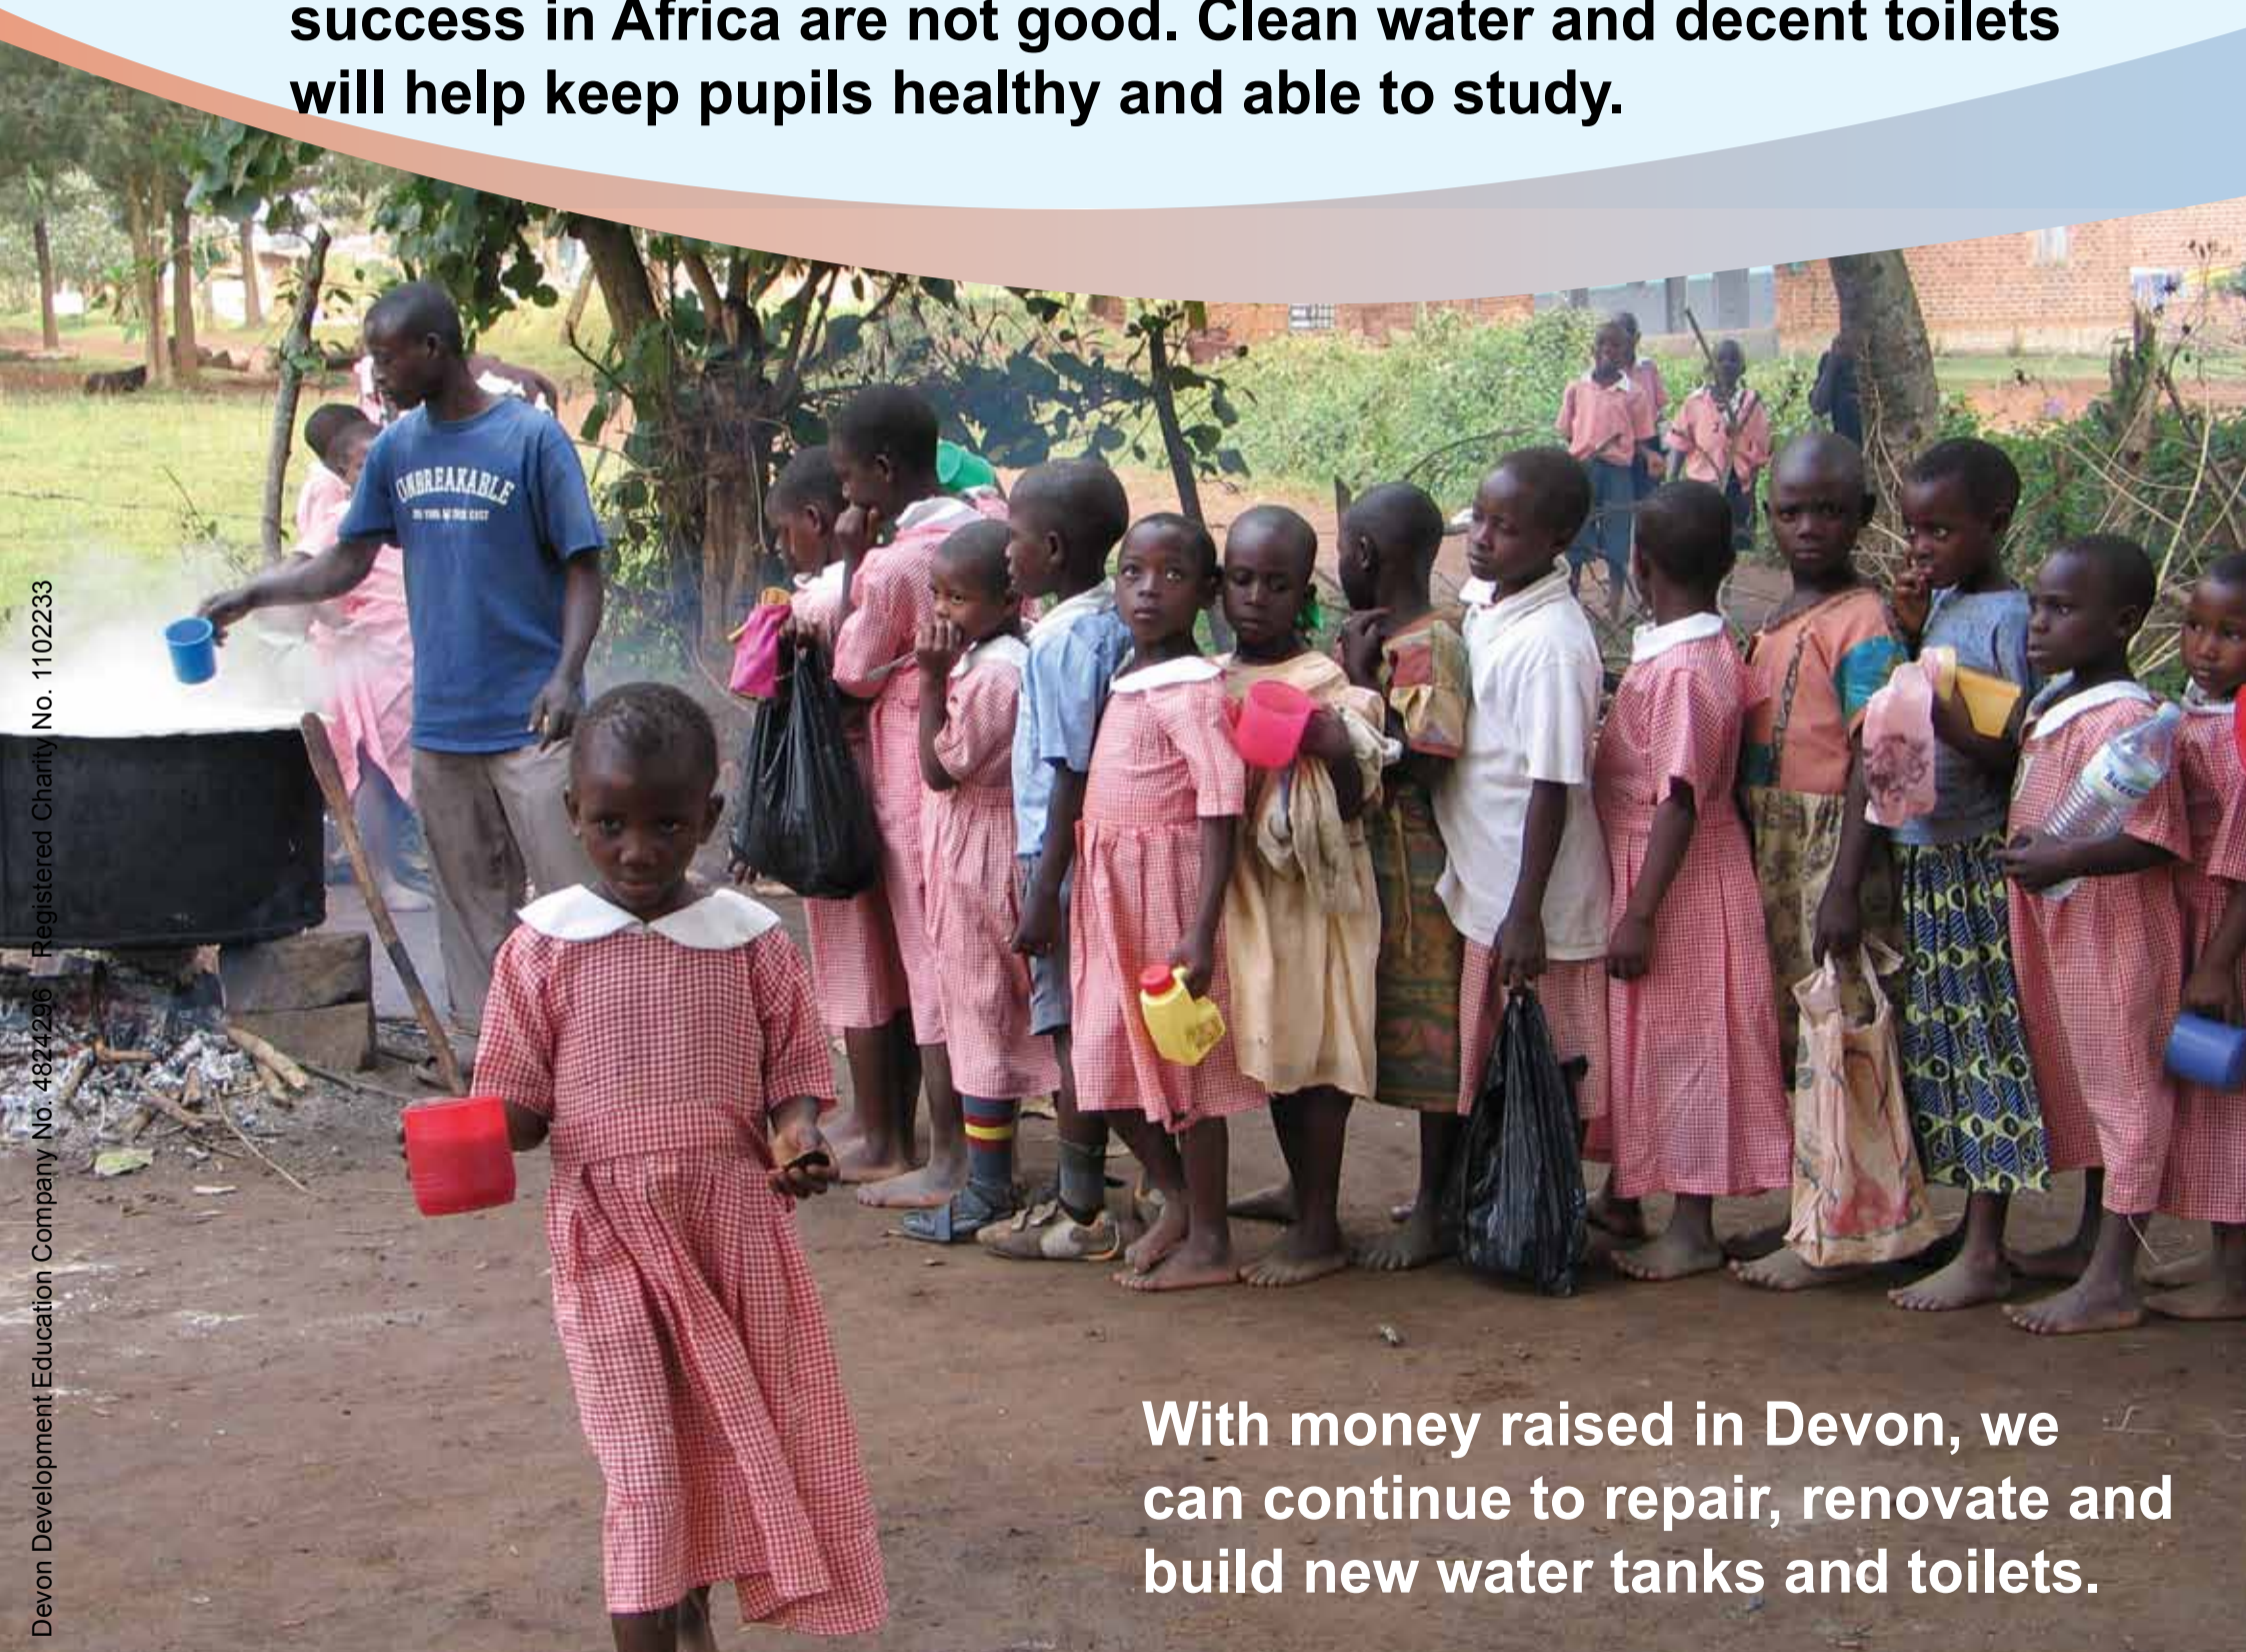

Stand Up! 2012

for better sanitation in Uganda

Feb

Please take part to enable Devon to make a difference to children in Uganda.

One of the Millennium Development Goals is to eradicate extreme poverty and hunger by 2015. Another is to ensure that all children complete primary education. But prospects are for success in Africa are not good. Clean water and decent toilets will help keep pupils healthy and able to study.

With money raised in Devon, we can continue to repair, renovate and build new water tanks and toilets.
